

Calibration Services and Much More

Let JM Test Systems be your Bio-Medical Test Equipment Calibration and Maintenance Supplier. We provide NIST Traceable calibration services at your site or in our laboratories. With fast turn around and ISO-9001 quality service you are assured that your test equipment is performing to manufactures specifications. We calibrate leading brands such as Fluke Biomedical, Fluke, DNI Nevada, Biotek, Timeter, Dale, Hill-Rom, Maxtec, Tektronix, B&K, Alaris, IVAC, IFR, HP, and many more. All calibrations are performed to manufactures, DoD, or JM Test calibration procedures.

Beside electronic and bio-medical equipment we also calibrate telemetry, nuclear, radiation and nuclear safety test equipment. We also calibrate and repair RF Communication test equipment. We are truly your one stop calibration and service provider. JM Test Systems also sells and rents test equipment from leading manufactures such as Fluke, Fluke Networks, IFR, Keithley, Extech, Anritsu and Will'tek.
